Lloyd Mensah

Software Engineer

Accra, Ghana lloyd.n.mensah@gmail.com

+233263319480

Summary

Software Engineer with 3+ years of professional experience building and maintaining web applications using PHP, Laravel, SQL, and API integrations. Experienced in designing backend applications, with additional experience in ReactJS, Flutter, Python and AI development. More recently, I have expanded my technical experience into web application security assessment and AI automation. I enjoy solving complex technical problems and using modern AI tools to improve software development and delivery.

Experience

Cybersecurity Analyst

e-Crime Bureau, Accra-Ghana *Mar 2026 – Current*

- Conducted web application security assessments to identify vulnerabilities across authentication, authorization, input validation, session management and application logic.
- Performed vulnerability analysis and produced technical reports documenting findings, risk rating and remediation recommendations across 8 software applications.
- Developed Python scripts to automate the preprocessing and analysis of security assessment reports, reducing manual analysis time.

Associate Software Engineer

LOM Electromechanical, Accra-Ghana *Jan 2025 – Dec 2025*

- Designed and implemented a Laravel-based backend to log and manage device state changes for a smart home automation system.
- Designed, deployed and maintained the company's website, ensuring reliability and optimal performance.

Software Engineer

Bewsys Ltd, Accra, Ghana *Nov 2022 – Nov 2024*

- Integrated a payment gateway into a Laravel-based crowdfunding platform, working with secure transaction flows and API integrations.
- Designed, built, and maintained SQL databases supporting 13 applications.
- Built a feature enabling seamless export and import of data between SQL databases and Excel across multiple applications using PhpSpreadsheet.
- Designed and developed a dashboard for a web-based asset management application, improving data accessibility for 200+ users and reducing reporting time by 40%.
- Collaborated with team members to develop a mobile application for sales management with Flutter.
- Led training sessions for over 100 end users, enhancing their ability to navigate and utilize multiple applications developed by the Bewsys team, resulting in a significant reduction in support requests.
- Authored comprehensive user manuals for crowdfunding, asset management, and directory listing applications, leading to an improved adoption rate and onboarding speed.

Software Developer (Intern)

PaySwitch, Accra, Ghana *Sep 2021 – Oct 2021*

- Developed a Python plugin to facilitate seamless integration of "theteller", PaySwitch's payment gateway.
- Led clients in API integration and troubleshooting problems within their applications.
- Collaborated with other developers (using Git and GitHub) in building an e-commerce marketplace.

Education

MSc AI & Computer Science, Birmingham, UK, Sep 2024 – Sep 2025

University of Birmingham

- Completed a course in Computer Systems.
- Achieved an A grade in a Software Workshop course focused on Python programming.
- Integrated a pre-trained AI model into a Flutter mobile application for diagnosing crop diseases.
- Completed NVIDIA's course on the Fundamentals of Deep Learning.

BSc. in Computer Science, Miotso, Ghana, Feb 2019 – Jul 2022

Central University

- Completed a Software Engineering course with a grade of B.
- Earned a Grade A in Database Concepts.
- Developed a web-based lecturer evaluation system for my final year project.

Professional Systems Engineering, Accra, Ghana, 2017

IPMC Training Institute

- Configured and managed client-server network environments
- Implemented system security policies and user access controls
- Installed and maintained enterprise operating systems

Skills

- **AI Programming**
- **Frameworks & Libraries (ReactJS, Laravel, Flutter)**
- **Database Design & Management (SQL)**
- **Development Tools (Git & GitHub)**
- **Full-Stack Development**
